PROFESSIONAL PROFILE

Creative strategist and technology-oriented project professional with experience in startup project development, business development, partnership exploration, AI tools, prompt engineering, and web technologies. Experienced in identifying business opportunities, initiating partnerships, coordinating projects, and applying emerging digital technologies to practical business requirements.

WORK EXPERIENCE

SYNTHRIUM — Project Manager | April 2026 – August 2026

- Initiated and secured a project opportunity for the development of a small-scale branded coconut processing factory.
- Supported the early-stage development of the project concept and operational requirements.
- Coordinated discussions relating to the factory's branding, structure, and operational model.
- Supported business development and project coordination activities throughout the early stages of the project.

PANDYT — Business Development / Partnerships | June 2025 – September 2025

- Conducted brand introductions and explored potential business partnerships.
- Initiated discussions with established brands, including DFCC and Pizza Hut.
- Supported partnership exploration and business-development activities.
- Identified potential commercial opportunities between brands and the company.
